

Using POLARIXCOSTING (PXC), organisations can record, simulate, and then show their product and service costs in a transparent way.

Based on the Microsoft-standard and using an SQL-database, costing results are made available in Excel using a COM add-in so that everyone can trace and understand them.

- Flexible evaluation options
- Customisable for all organisations

QUICK, FLEXIBLE, AND NEGOTIATION-READY

POLARIXCOSTING – the costing software with integrated expert-know-how and maximum costs transparency.

PXC

POLARIXCOSTING

POLARIXCOSTING - Structuring your journey through the world of costs

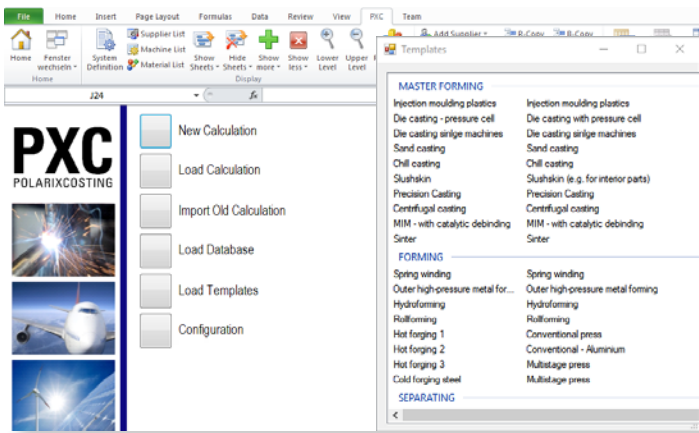

- Modular processes
- Technology templates
- Costs transparency using bottom-up standards
- Supply chain analysis
- Make-or-buy-decisions
- Flexible overhead calculation
- Country-specific productivity rates
- Materials, machines, and country specific data
- Up-to-date, validated values
- Regular updates

Successful calculations using a well-proven tool!

- User-friendly interface
- Quick results thanks to integrated technology templates
- Applicability across a range of industries
- Offline functionality with synchronisation options
- Flexible methods for data exchange (Cost-break-down generator)
- Easy report generation (Report generator)
- Interoperability with ERP systems possible
- Compatibility with Microsoft Office

FAST AND DETAILED

Comprehensive technology templates

PXC offers a range of templates for almost every standard technology. Use the combined know-how of POLARIXPARTNER consultants to compile reliable, negotiation-ready costings with just a few basic inputs.

RELIABLE AND FLEXIBLE

A modular software solution for your company

PXC can display any number of production sites in its supply-chain map, allowing costs analysts to simulate the fullest range of combinations at all logistically relevant locations.

Concentrate on key processes and materials while PXC does the rest, providing the data and calculations you need automatically once you have selected your supply chain options.

AN EYE ON THE FUTURE

EVERY DETAIL COUNTS!

PXC database
 Labor rates, material data, machine data, general costs, country-specific structural costs etc.

THE GUIDING STAR FOR THE MANUFACTURING INDUSTRY

POLARIXPARTNER is the management consultancy for the manufacturing industry.

As industry insiders with many years of experience, we guide you on your way to success, just as the North Star, Polaris, has offered generations of seafarers orientation. Our approach is holistic, our philosophy focussed on implementation: we analyse and strategically evaluate your core processes while remaining active on your shop floor to make sure that optimal improvements are implemented up and down your value creation chain.

Product costs
 Material, process, overhead costs etc.

Tooling costs
 Casting, cutting/stamping, bending tools etc.

Development costs
 Mechanics, electronics, software etc.

Logistic costs
 Packaging, transport (air, water, road), customs etc.
